General Delivery XOE ONO

Dear Ms. Wiebe:

During the last community consultation July 25, 2005 Deh Cho Land Use Planning Committee presented a map showing the traditional boundary lines Between Nahanni Butte and Ft. Liard. Presently Nahanni Butte and Ft. Liard have not settled the boundary lines between the communities. We disagree with the proposed traditional boundary lines that is illustrated on the current land use planning map.

We request the error be corrected so there may be no more misunderstanding in the boundary line issue.

Previous to the current boundary line, our communities agreed the boundary would be 60 degrees 30.00 minutes North Latitude. Ft. Liard has negotiated with previous leadership regarding boundary line and has advance north to 60 degrees 40.00 minutes.

The Community disagrees with Ft Liard's wishes to further advance the traditional boundary line north.

Please contact our office for any questions or concerns.

Mahsi Cho,

Chief Eric Betsaka,  
Nahanni Butte Dene Band
