**RE: Support for the Final Draft Dehcho Land Use Plan**

**Dear Ms. Wiebe,**

**Thank you for sending us the revisions to the Final Draft Dehcho Land Use Plan via email on June 13, 2006.**

**As Chief Gabe Hardisty stated in Fort Liard on May 31<sup>st</sup>, our community is aware of the extensive efforts that the Dehcho Land Use Planning Committee put into Plan development over the last four years and we fully support the Dehcho Land Use Plan, providing it includes our requested revisions to ensure the protection of subsurface lands and resources through Special Management Zones in the Pehdzeh Ki Ndeh area.**

**There has been a recent turnover in Leadership within our community. However we do not wish this to delay approval and ratification of the Final Draft Dehcho Land Use Plan expected at the Kakisa Assembly on June 27-29, 2006.**

**This position has been conveyed clearly by the previous leadership and I am confident it will be maintained by the new Leadership. We understand that ratification of the Land Use Plan is time sensitive and protection of the land is a critical issue for PKFN.**

**In the absence of Leadership, please accept this letter of support for the Final Draft Dehcho Land Use Plan, which includes the recent zoning revisions of June 2, 2006, as an equivalent to a Band Council Resolution. A Band Council**

Resolution will be forwarded reiterating this support once a new leadership council is in place.

Sincerely,

**Tim Lennie**
