Dear Heidi,

As you know, Ts'ueh Nda (West Point First Nation-WPFN) is located at West Channel on the shores of Tutcho. WPFN has never extinguished our title to lands in Denendeh, including those now considered municipal lands.

This summer we will be developing land adjacent to our community that the town considers theirs. WPFN advises the Deh Cho Land Use Planning Committee that we are also interested in developing at Six Mile Creek. We have developed a map with Petr Cizek. Over the long-term, WPFN will exist at both Six Mile Creek and at West Channel.

In all of the maps you have produced, presented and published, we observe a form of erasure. Ts'ueh Nda (WPFN) has been left off your maps. We would like you to properly acknowledge and identify us on the Dehcho maps and in all further presentations. Thank you in advance for your support. We look forward to working with you to develop the land use plan which secures our title and use on our traditional lands.

Best regards,

Chief Karen Felker
